PHYSICIAN'S AFFIDAVIT.

PROOF OF PHYSICAL DISABILITY.

TAKE NOTICE.—The affidavit should, if possible, be in the handwriting of the affiant; the marginal instructions must be carefully observed before writing out the statement. All the facts in possession of affiant as to the origin and continuance of the disability should be fully set forth, and the dates of treatment should be specifically given.

State of Pennsylvania, County of Chester, ss:

In the Pension Claim No. 1027.698 of John K. Bugless
late of C. "A" 1st Regt. Infy. Pa. Res. Corps
(Company and regiment of service if in the army, or vessel and rank if in the navy.)

Personally came before me, a Justice of the Peace in and for the aforesaid County
and State, Percy C. Hopkins a citizen of West Chester Pa.
whose post-office address is West Chester Pa.

well-known to me to be reputable and entitled to credit, and who, being duly sworn, declares in relation to the aforesaid case as follows:

That he is a Practicing Physician, and that he has been acquainted with said soldier for about 20 years, and

that
[Here embody all the facts known to the affiant in accordance with the marginal instruction. No erasures or interlineations will be per-

mitted unless the magistrate certifies in his jurat that they were made before executing the paper.]

claimant's complaint of shortness of breath, degeneration of heart, forcing down in consequence. This condition has existed since 1879. Physician by examination thus decided heart trouble permanent in character. There is a marked mitral regurgitation - sound distinctly over the apex of the heart - the shortness of breath, occurs upon the least exertion and thereby prevents him from working steadily. About twelve years ago he was confined to the house seven months, two of which he was bedfast - cause, acute arthritis - Rheumatism - we have in this statement the explanation of the permanent heart trouble - The heart trouble grows worse - I do not hesitate to say that John K. Bugless is now almost totally incapacitated for labor, or earning his own living.

NOTES.
The Physician's Affidavit must show the following facts:

1st. A complete diagnosis of the disabilities upon which the claim for pension is based, and the period during which he treated him.
2d. That the soldier is suffering at present from a mental or physical disability of a permanent character, not the result of his own vicious habits, which incapacitates him from the performance of manual labor in such a degree as to render him unable to earn a support. The degree or extent he has been disabled since the filing of his application should be plainly stated.

Attention is invited to the outlines of the human skeleton and figure upon the back of this certificate, and they should be used whenever it is possible to indicate precisely the location of a disease or injury, the entrance and exit of a missile, an amputation, &c.

The absence of a member from a session of a board and the reason therefor, if known, and the name of the absentee, must be indorsed upon each certificate.

and that he receives a pension of _____ dollars per month.

He makes the following statement upon which he bases his claim for orig. -

Here give the claimant's statement as briefly and as compactly as possible.

[Original, increase, restoration, &c.]
Rheumatism developed about 25 years ago in back, hips & shoulders. Is growing worse. Never had rheumatism in foot.
Has had piles since '62, they come down & bleed.
Has not been able to make more than 1/3 time his last year. Is short of breath, has palpitation & dizzy head.

Upon examination we find the following objective conditions: Pulse rate, 66; respiration, 24; temperature, 98 1/2; height, 5 feet 11 inches; weight, 157 pounds; age, 59 years.

Here give a full description of the disability, in accordance with Book of Instructions.

Difficulty in stooping & rising, some rigidity of lumbar muscles but no wasting. Some stiffness of shoulder joints but no swelling or atrophy of muscles or limitation of motion.
No evidence of rheumatism in other parts of body.

Heart: apex impulse evident to palpation only, area normal; area of cardiac dullness normal; rhythm regular; force slightly diminished. Sounds indistinct. Aortic systolic murmur. Some dilatation & dyspnoea. No hypertrophy, cyanosis or oedema. Pulse increased to 84 on exertion: no areas scurvis, arteries soft.
General tenor & some debility.

Two pile tumors one size of shellbuck & one size of hazelnut, not inflamed, bleeding or ulcerated. Partly internal & partly external.
No fissure, fistula, ulcer or prolapse.

State for EACH use of disability.

No other disabilities. He is, in our opinion, entitled to a 4/8 rating for the disability caused by rheumatism, 6/8 for that caused by heart disease, and 4/8 for that caused by piles.
